Letter of Recommendation

To whom it may concern

Greetings and wishes from Basler Leprahilfe – Switzerland

I am Dr. Rainer Füg, Director, Basler Leprahilfe, an organisation that has been active in eliminating leprosy in the provinces of Andhra Pradesh and Tamil Nadu, India, since the early 1990s.

CONCORD Trust in Kalasamudram, Tamilnadu, INDIA is one of our local partners in Tamil Nadu, who is implementing our programs in the field successfully. We have worked with VOC since 2019 in three projects consisting of awareness building, early detection, and referral of newly found patients to the health system.

CONCORD Trust is well organized, has good connections in their area of activity and has realized our projects successfully within the given budget. We can recommend them to you as a serious and committed organisation.

Kind regards

Dr. Rainer Füg
Director, Basler Leprahilfe
